

ORGANIC SINGLE ESTATE COFFEE

FILTER:

Boil the kettle and let it stand
for one minute after boiling.

Place 30g of filter-ground (medium-coarse)
coffee in the filter paper.

Pour 500ml water over the grounds
in a steady pour, keeping the grounds
covered with water throughout.

Adjust the grind
and coffee weight (eg 32g)
to get the cup of coffee
that brings the most pleasure.
